Guidelines on how to fill Bio-Zyme Dual Chamber Foamer

Follow these three simple and easy steps:

1

Turn the blue tab clockwise to the 'off' position. Remove from unit fill with warm or cold water to the shoulder line of bottle.

2

Turn the green tab clockwise to the 'off' position. Remove it from unit and use pump to fill both product to the shoulder line of bottle.

3

Replace foam head and turn the blue and green tabs to the 'on' position. This will lock your bottles into place ready to use.

To refill bottles when empty, repeat as above.

'Clean and Sanitise frequently touched surfaces often'

CLEANING METHOD:

STEP 1: Foam Bio-Zyme ready to use onto microfibre cloth, paper towel or dry wipe to clean surfaces. Either leave to dry or wipe with clean damp cloth.

STEP 2: Repeat step 1 to Sanitise *see MPI approval. Leave for 1 minute contact time. Either leave to dry or wipe off with clean damp cloth.

See 2 Step Bio-Zyme Cleaning Sanitising Instructions; available.
